

All Homeowners:

As the SHOA BOD and the community continues to adjust to the impact of the COVID-19, rest assured that the well-being of our homeowners and guests at The Local Pub, golfers at the Savannahs Golf Club, and all staff at the Club are of the utmost importance. We are following the guidelines and recommendations from the CDC and the local, state, and federal governments to help limit exposure and mitigate transmissions of the virus.

Steps that have been taken to achieve these goals are:

- The Local Pub, as of March 18th, has adjusted to a status of “Take Out Service” only. This level of service now meets the guidelines, as well as the reduction and appropriate spacing of seating to meet the 50% criteria of normal capacity. All seats at the bar have been removed. The liquor license is for a “club” and does not fall into the category of “bar” that has been closed by the State.
- The tables/chairs/surfaces are being cleaned with disinfectant after each use.
- The regular menus for food and bar service will be available by placing an order at the bar or through a new service window from the Club balcony.
- The preference is for customers to take their food and beverages outside to the balcony. Or, they can take the food away. An appropriate spacing of seating is now available outside and tents have been set up for shade.
- Savannahs Golf Club will continue to operate on the normal hours and days. This decision is typical of current actions by golf courses throughout Brevard County.

There have been several adjustments made throughout the operations to ensure the health and safety of the staff and the golfers. These actions include: 1) Maintaining the 8 minute rule between tee times. 2) Closely monitoring groups going to the first tee to avoid bunching up of players. 3) Accommodating golfer’s request for a separate cart when possible. 4) Consistent cleaning of carts interior surfaces with disinfectants. 5) Removal of water stations, bunker rakes, sand buckets on tee boxes, requesting that golfers leave the flag stick in when putting to avoid contamination. And 6) Disinfectant is being used in the ProShop on all surfaces.

The BOD is monitoring daily any updates from the CDC and state/federal in regards to the COVID-19 that affect the operations of The Local Pub and the Savannahs Golf Club. If you have any additional concerns or questions please let us know.

Thank You,

*The Savannahs Homeowners Board of Directors*
